Attractive Packaging and Display Options

We offer attractive **sub pack boxes, bags and blister packs** that clearly display part numbers and sizes for easy stocking and part retrieval. We also have a convenient **counter mat** that reminds customers of the importance of superior clamps. If you're looking for larger displays, we offer two sizes of **IDEAL-TRIDON® Wing Stack Bins**. These easy to set up bins hold an even larger amount of product with pricing decals.

Part Number Explanation

IDEAL-TRIDON uses both **12-digit and 7-digit part numbers** with Tridon part numbers listed for reference only. Putting your part number together is an easy two-step process.

1. **Select the IDEAL-TRIDON part number by series and size** listed in the tables throughout the catalog.
2. **Add the appropriate pack code to the end.** 7-digit part numbers use a 2-digit pack code and 12-digit part numbers use a 3-digit pack code.

Pack Type	7-Digit Pack Code Suffix	12-Digit Pack Code
10-Pack (up to size 104)	51	051
Bulk	52	052
10-Pack Individually Barcoded (up to size 104)	53	053
*Not every product available in 10-Pack configuration		

EXAMPLE USING 12-DIGIT PART NUMBERS (Ordering a Size 06 1/2" Hy-Gear 67-4 in a 10-Pack)

Series (First 5 Digits)	+	Size (Next 4 Digits)	+	Pack Code (Last 3 Digits)	=	Complete Part Number
67004 (Series 67-4)	+	0006 (4-Digit Size)	+	051 (3-Digit Pack Code)	=	67004-0006-051

EXAMPLE USING 7-DIGIT PART NUMBERS (Ordering a Size 06 1/2" Hy-Gear 67-1 in 10-Pack)

Series & Size (First 5 Digits)	+	Pack Code (Last 2 Digits)	=	Complete Part Number
6706-1 (Series 67-1 in Size 06)	+	51 (10-Pack)	=	6706-1-51
